

PotashCorp, the world's largest crop nutrient company plays an integral role in global food production. The company produces the three essential nutrients required to help farmers grow healthier, more abundant crops. With global population rising and diets improving in developing countries, crop nutrients such as potash, phosphates and nitrogen offer a responsible and practical solution to help produce the food we need, from the land we have.

The following temporary employment opportunity is intended to introduce a voluntary self-identified Aboriginal student or recent graduate to this job category at PotashCorp, and is offered in addition to other summer employment and term opportunities.

The company has a career opportunity for qualified applicants at PotashCorp – New Brunswick Division, located 10 km east of Sussex, New Brunswick.

Technician/Technologist Summer Student

We currently have one position available for one student enrolled in any one of the three following areas of Study:

Chemical Technologist: Duties include sampling, preparing, analyzing and reporting from multiple sites through the product refining process in order to maintain good quality assurance. Additional duties may include environmental sampling, preparing and analyzing from various sites through the Kennebecasis river system and other watershed points on the Picadilly site on a daily and weekly schedule.

Industrial Control Technologist: Duties include assisting PCS Instrument Technicians with their day to day jobs. Other duties include installing/repairing/calibrating Fisher valves, Rosemount transmitters, Milltronic/Siemens level transmitters, etc.

Process Control Technologist: Assist the mill production department in production related tasks. The student will take part in completing routine housekeeping duties and assist in running mill production circuits.

Candidates in an NBCC Technology Program related to the above areas of study (Chem. Tech, IC Tech, and Process Control Tech) with industrial experience and capable of physical labour are preferred for these positions.

This temporary role is a full-time position anticipated between May 2016 and August 2016.

The successful candidate may be required to undergo a background check. All safety sensitive positions require a substance test in accordance with PotashCorp policy.

PotashCorp offers competitive compensation and benefits programs. We are a dynamic company, offering new opportunities to motivated, hard-working and energetic employees. Interested candidates should submit resumes in confidence by **January 4, 2016** to:

PotashCorp- New Brunswick

www.potashcorpjobs.com

Preference will be given to those applicants who chose to voluntarily self-identify as Aboriginal.

We would like to thank all who apply; however, only those candidates selected for an interview will be contacted.
